

TING & YING

BLANC DE CHINE

Constellation

This group of work stems from the need to conserve materials and energy. I up-cycle discarded decals from the Royal Crown Derby print works and apply them to a set of dinner service. They are fired in empty spaces on their production kilns.

Constellation was exhibited at Asprey, and the 'Food Drink Art Design' exhibition, Museum of Art and Design in New York.

Constellation is in the permanent collection of Museum of Art and Design, New York.
