

ANPEC is an association with a solid track record and tireless dedication to the promotion and support of professionals in the field of ceramics. For more than 30 years, since its founding in 1990, ANPEC has worked hard to foster the growth and development of ceramic artists throughout the country.

Our association has more than 220 active members who represent a wide range of artistic talents and approaches within the field of ceramics. We organize and participate in various events, such as meetings, exhibitions, courses, contests, and get-togethers, which provide their members with a platform to showcase their art, interact with other professionals, and strengthen their skills, knowledge, and good practices.

ANPEC is proud to promote and support new emerging artists in the field of ceramics. We believe it is vitally important to foster creativity and innovation, and to provide opportunities for those who wish to explore new techniques and approaches in their artistic practice. Through our association, many artists have found the necessary support to take their first steps and make a name for themselves in the ceramic industry.

ANPEC's headquarters are located in Manises, a town with a rich tradition in ceramics. The close collaboration that we maintain with the School of Ceramics of Manises has been essential for the growth and success of our association. Together, we have organized events, workshops, and educational programs that have enriched both our members and the ceramics community at large.

We also actively collaborate with the Valencian Association of Ceramic Entrepreneurs and Craftsmen Guild, AVEC-Gremio, as well as with the City Council of Manises, named a creative city by UNESCO in the category of Crafts and Popular Arts.

The inclusion of ANPEC in the International Academy of Ceramics would allow a fruitful exchange between our organizations. Our members would have the opportunity to participate in training programs and workshops given by internationally renowned experts, which would further strengthen their technical and creative capacity. At the same time, ANPEC would bring its vast experience and accumulated knowledge to the Academy community, enriching and bringing a unique perspective into the world of ceramics.

ANPEC for INTERNATIONAL ACADEMY OF CERAMICS

In summary, ANPEC, the National Association of Ceramic Professionals, would like to join the International Academy of Ceramics to continue promoting ceramic art and support our members in their professional growth. We firmly believe that the inclusion of ANPEC in your prestigious institution would be a beneficial and enriching association for both organizations. We are looking forward to the opportunity to collaborate and contribute to the continued development of ceramics internationally.

We appreciate your consideration and look forward to become a member of the International Academy of Ceramics.

Yours sincerely

Carmen Marco Dasi, President of ANPEC
