probando barros, mirando piezas arqueológicas en los museos y visitando talleres alfareros tradicionales.

Me interesa rescatar las técnicas cerámicas originarias de América, actualmente sólo utilizadas por quienes aprendieron de sus ancestros por trasmisión oral. Lamentablemente los avatares de la historia parecen ser contrarios a quienes con espíritu simple aún preservan la memoria, pero contra toda estadística creo que es posible generar una estética americana dónde se conjuguen antiguos y nuevos símbolos.

Dedico ésta exposición a mis amigos, y a todos los que día tras día viven en contacto con la tierra.
