

## Rong Sheng

Rong Sheng was born in 1989 and currently resides in Shanghai. He is an artist who mainly works with ceramics. He draws inspiration from ceramic techniques and explores the interaction among Buddhist theories, the technical processes of materials, and presentation methods as a key narrative approach. His creations mainly involve installations, sculptures, and the use of mixed media. By taking ceramic materials and techniques as the basic grammar, he comes up with his own learning and understanding of the Buddhist worldview and perspective of life. Through unconventional use of ceramic materials and techniques, he endows them with spiritual connotations beyond their physical properties.

Rong Sheng graduated from the Shanghai University of Fine Arts and obtained a master's degree from Shanghai University. His works have been selected for the 11th Mingcera International Ceramic Exhibition and the Jingdezhen International Ceramics Biennale, and have been collected by Jingdezhen Ceramic University.
