Roofcat

Roofcat is a kind of mascot in China.

Legend, it can eat all of the devil, so it is placed in the middle of the roof to protect the house. I combined the Korean earthenware and Chinese Roofcat in celadon language. I would like to see more variety of ethnic integration.

Ceramic Jang-gun Shaped Bottle

This study reveals a unique beauty that combines traditional culture and modernism by designing the twelve zodiac animals and employing Buncheong techniques and pictorial methods that emphasize a theme by depicting patterns and backgrounds in a unique fashion. Moreover, by borrowing the shape of Jang-gun, this study explores new possibilities for developing Jang-gun practically as well as through molding.
