GALLERY IN ŠTANJEL

Štanjel is a small medieval village in the Karst region of Slovenia. Our family gallery Ana & Gaja Art Gallery is located on the medieval walls. We opened the gallery in the summer of 2017 to exhibit and sell my and my daughter's products. At least two times a year we organise social events and present our work to the wider public. Sometimes we also invite external artists and designers to participate. The gallery is open during the warmer months, from April to November. It is well visited by both local and foreign tourists.
