Iliana Scheggia, a visual artista and ceramist born in Lima in 1972, graduated with top honors in 2004 from the Escuela Superior de Bellas Artes Corriente Alterna. In 2021, she completed her ceramist training at the Escuela Sonia Céspedes Rossel and earned a Bachelor's in Fine Arts from the Universidad Nacional Mayor de San Marcos. She furthered her studies with diplomas in art therapy and education from the Universidad Femenina del Sagrado Corazón and the Universidad Antonio Ruiz de Montoya.

Her artistic practice primarily focuses on sculpture, ceramics, and printmaking, exploring the relationship between space, geometry, and the body, while merging the ancestral with the contemporary. She incorporates geometric patterns, fractals, and mathematics to reflect on nature, memory, and human existence, examining the dualities of fragility and solidity, the ephemeral and the enduring. Through her art, she invites viewers to engage with and reflect on the transformation of elements, blending the past and present.

Scheggia has received awards such as the Sculpture Prize in the XXII Concurso IPAE (2021) and the Peter & Adriana Hobart public sculpture award (2010). With eleven solo exhibitions, highlights include Walkabout - New London (2023) at the Expressiones Cultural Center in the U.S., Progresión at Espacio Lavadero in Granada (2022), and Des-Pliegues at La Galería in Lima (2021). She has participated in group exhibitions in Peru and abroad and held artist residencies in Lisbon, New York, Utica, Amstelveen, Reykjavik, and Vermont, as well as at the XII Macsabal Silk Road Symposium in Ankara, Turkey (2022).

Her work is included in public and private collections. Scheggia has been selected for the 2025 Bienal de Aveiro, further expanding her international presence. She currently resides and works in Lima.
