Letter of support: from International Museum of Ceramics in Faenza for STUDIO
DESIMONEWAYLAND for membership of IAC

Dear Mr. Oriol Calvo Verges and Honorable Members of the Council,

The MIC Faenza is an honored to present Studio DeSimone Wayland for IAC
membership.

DeSimone and Wayland start from everyday forms to address their evolution in an
original way. Their production of seemingly synthetic shapes, is the result of a
careful research work. Their "plates" become elegant and interesting installations
that offer design cues and contribute to the renewal of ceramic production.

We wish to support artists who are committed to the renewal of ceramic language,
artists who devote their energy to promoting a multifaceted art, in innovative and
refined way.

We look forward to a successful outcome of their request of IAC membership

Kind regards,
Claudia Casali
MIC Faenza Director
