

Ciclo Continuo

Finalist work, selected to exhibit at the 2024 **Taiwan Biennale**.

The Taiwan Ceramics Biennale is held at the Yingge Ceramics Museum in New Taipei City. This competition creates a dialogue between the ceramic community in Taiwan and the rest of the world, gaining the attention of all ceramic communities. The 2024 Taiwan Ceramics Biennale continues to maintain its initial mission and invite passionate artists to reach new heights of creativity and contribute to the fields of ceramics, contemporary art and culture.

This biennial is undoubtedly one of the great opportunities for ceramists from all over the world, not only to obtain one of the most important financial awards of the world competitions, but also to open access to the international market, especially the Far East, which is positioned as one of the most important today.

The awards ceremony and opening of the biennial will take place in October 2024 at the "New Taipei City-Yingge Ceramics Museum", where the exhibition of selected and winners can be visited from October 2024 to April 2025.
