Musica del cuore

La tua voce sembrava musica
non potevo resistere
Piu' parli
La tua voce non lo era
Lui è semplicemente bellissimo
Anche le tue parole erano simili alla filosofia dell'amore
E la tua calma era come il suono delle onde del mare
Si, sono un poeta
Un grande oratore
Anche uno scrittore
Pazzo grande
Una ceramica solida
Oh la perla dell'inverno
Guida il cielo
Giuro di non aver mai visto nulla di simile alla tua bellezza prima d'ora

E il battito del mio cuore bianco era come il suono del tamburo
Le mie belle parole erano sparse Come no
E ovviamente sei indescrivibile Mi piace il colore dei tuoi occhi neri I tuoi capelli a cascata
Mi piace la talpa nera Accanto alle tue labbra
Mi piace accettarti E mi piace che non posso Dimmi come diventare Polveri di bellezza incrinate in tua presenza
Dimmi come Nel mio cuore, fai tremori senza suono
Come mi scuoti il cuore Senza sussurrare
Come mi bruci? Senza fuoco

Heart music

Your voice looked like music
I could not resist/The more you talk/Your voice was not
He is just beautiful/Even your words were similar
to the philosophy of love/
And your calm was like the sound of the sea waves/
Yes, I'm a poet/A great speaker/Also a writer/
Crazy big/A solid pottery/
Oh the pearl of winter/
Guide the sky/I swear I've never seen anything like
your beauty before/And the beat of my white heart
was like the sound of the drum/My beautiful words
were scattered/How not/
And of course you are
indescribable/I like the
color of your black eyes/
Your waterfall-like hair/I
like the black mole/Beside
your lips/I like to accept
them/And I like that I can
not/Tell me how to become/
Beauty powders cracked
in your presence/Tell me
how/in my heart, you make
tremble without sound
How do you shake my heart
Without whispering/How
do you burn me?
Without fire

الأولى من نوعها في الأردن والثانية في الشرق الأوسط

تقنية «البريق المعدني الإسلامي للخرفيات» تعود للحياة على يد حزاف جري

ياسع ميلادي، تم ظهور لاحقاً بعد أن أقام الفاطميون دولهم بفتحها، كما
بر الخزف اللامع في سوريا وفارس، ووصلت أسرار هذه التقنية إلى
مسلمين في الأندلس وأذهرت في ملماً وبختسيا.

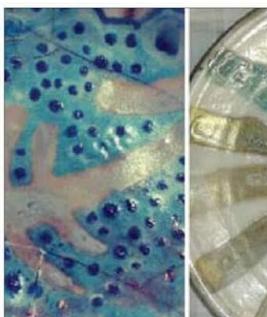

في العصر العباسي في القرن التاسع الميلادي، حيث ازدهر الاهتمام بالعلوم والفنون، مما أدى إلى تطوير العديد من التقنيات الجديدة في الأردن، والتي كانت لها تأثير كبير على تطور المجتمع العربي.

الخزف الماليات

الخازن يعقوب العثوم صاحب رسالة ماجستير حصل عليها قبل شهر من جامعة اليرموك وعنوان "جماليات الخزف في ضوء تلقيني وكتابي" وهو دراسة مقارنة، قال، إن جماليات الخزف هي أكثر ذوقاً وأنا تكون تحت سيطرة التقليдов إذ أن من أهم ما يدخل في كيمياء الخزف من تلقينات، قضية الرأوك اليابانية المنشآة في القرن الثالث عشر
