

ishoken gallery is an exhibition space for artworks opened on the first floor of the main building of Ishoken in May 2016 to introduce active graduates. Since then, along with the exhibition of works, classes for research students such as open special lectures and special practical training have been held. We have compiled vol.01 through vol.10 into a booklet to mark the 10th anniversary in 2020. ishoken gallery
